About the Report

Data presented in this report is from the Advance to Zero (AtoZ) database known as the By-Name List (BNL). AtoZ member organisations have till the 10th of each month to complete updates for the previous month. Snapshots of the database are taken after the closing date for updating for various analyses and reporting, including this bi-monthly report for the Housing First Homelessness Advisory Group & WAAEH Steering Committee.

The data in this report will not align 100% with that of the WAAEH's public dashboard because it is refreshed on the 20th of the month, ten days after the snapshots.

It's important to remember the following data caveats when reading and discussing the data analysis in this report.

Purpose

The report is primarily prepared to inform the WAAEH Steering Committee of the work carried out by the WAAEH team supporting the AtoZ methodology and its contribution to the WAAEH's strategy to end homelessness. The WAAEH Steering Committee must approve the report before it is released.

Data Caveats

Please refer to the caveats section on page 18, which covers all the data and analysis in this report. The data caveats must be referenced/included when linking, referencing, or republishing the content or data used in this report.

Further Information

AAEH & WAAEH

- David Pearson, CEO AAEH & EO WAAEH
- Michala McMahon, Director of Practice and Improvement
- John Berger, Director – Strategy and Engagement

Data report

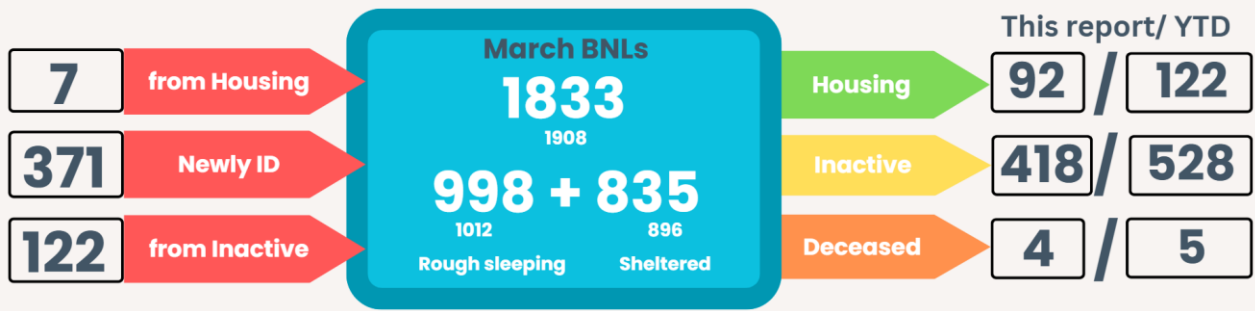

- Nghia Luong, State Data Lead

AtoZ Communities

- Bunbury: Matt Wilkins (temporary), Senior Community Impact Advisor
- Geraldton: Emily Williams, Community Impact Advisor
- Perth- Freo+: Matt Wilkins, Senior Community Impact Advisor
- Mandurah & Rockingham: Nick Mathieson/Stacey Levell, MKR Zero Project Local Community Coordinator

Section 1: WA AtoZ Communities Summary

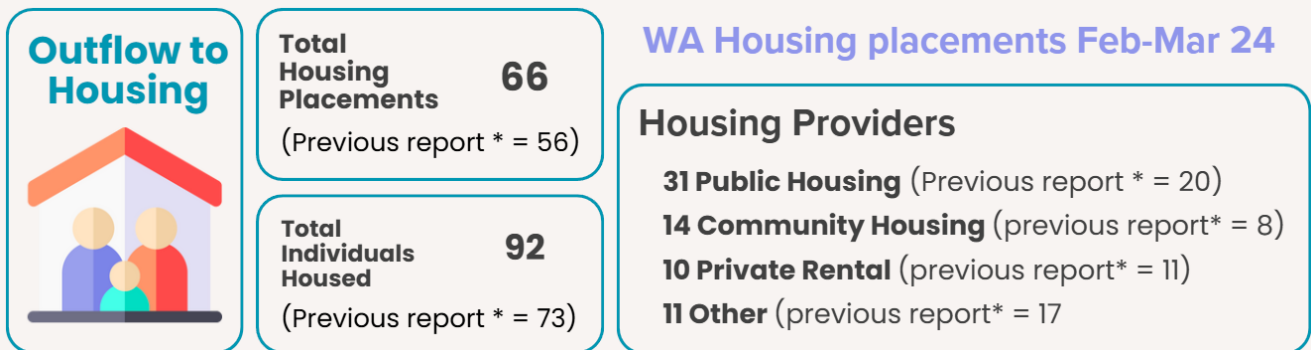

February - March in/outflow 2024

The in/out flows of the WA AtoZ communities for February and March.

- For March 2024, fewer people were experiencing homeless, seen in all the BNL metrics of total numbers, rough sleeping and temporarily sheltered.
- Two people were reported as deceased. One was covered in the news, who was housed at the time of her passing.

Outflow

*Previous report period was Dec 23 – Jan 24. The total number of people housed in YTD is only for 2024.

- There were 66 housing placements across the AtoZ communities resulting in the ending of homelessness for a total of 92 individuals.
- While there were few housing placements than the previous report, more individuals were housed.
- The leading housing provider for February and March is the Department of Communities Housing.

Section 2: Data by Community

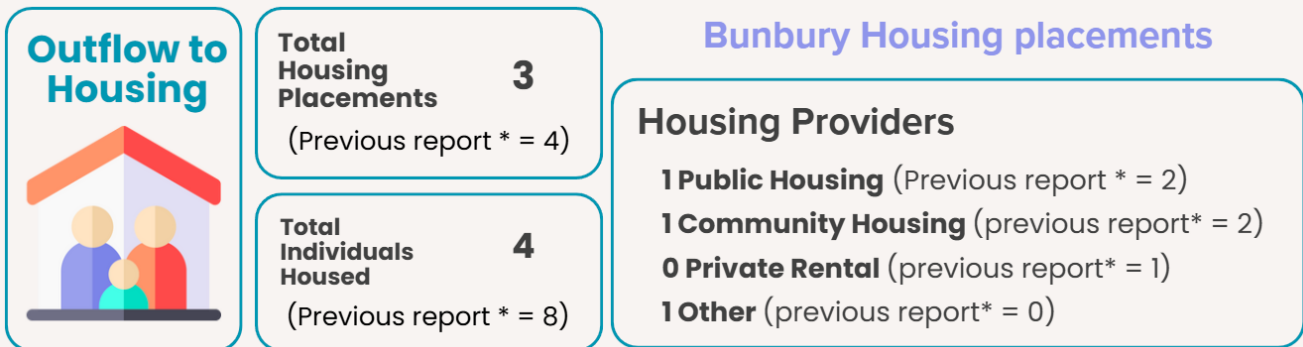

Bunbury

In/out Flows for March BNL numbers

Feb-Mar 2024

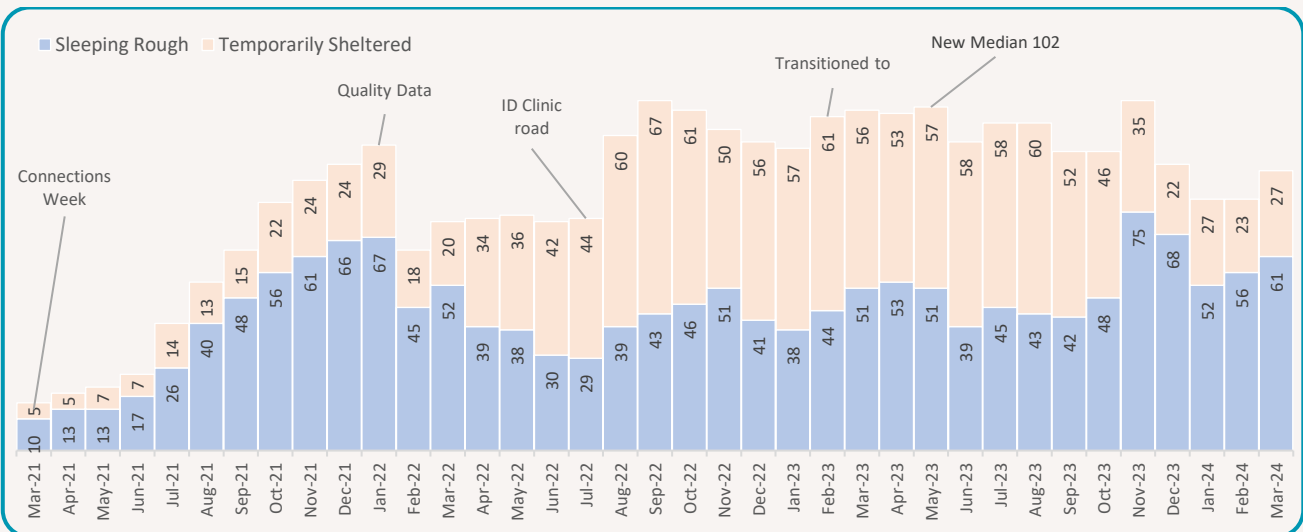

Outflow

*Previous report period was Dec 23 – Jan 24. The total number of people housed in YTD is only for 2024.

Run Chart

The Bunbury BNL started after its Connections Weeks that was carried out between Friday 5 and Monday 8 March 2021. The Connections Week [report](#) is available on the Zero Project website. Bunbury received certification for quality BNL data status from [Community Solutions](#) in January 2022.

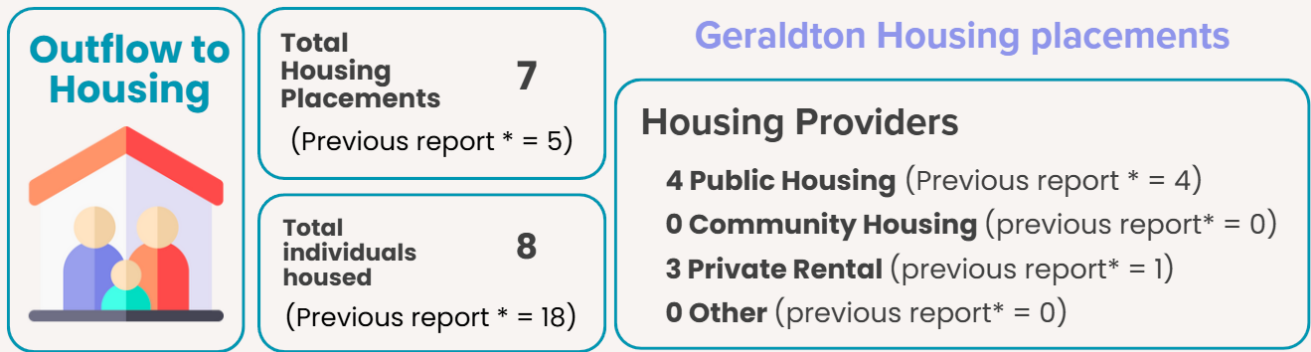

Geraldton

In/out Flows for March BNL numbers

Feb-Mar 2024

Outflow

*Previous report period was Dec 23 – Jan 24. The total number of people housed in YTD is only for 2024.

Run chart

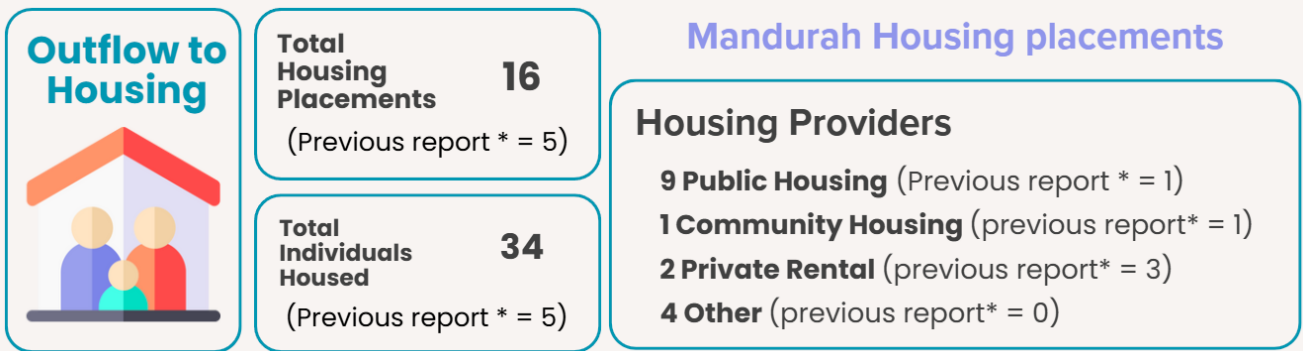

The Geraldton BNL started after its Connections Weeks that was carried out between Monday 16 and Friday 20 November 2020. The Connections Week [report](#) is available on the Zero Project website. Bunbury received certification for quality BNL data status from [Community Solutions](#) in January 2022.

Mandurah

In/out flows for March BNL numbers

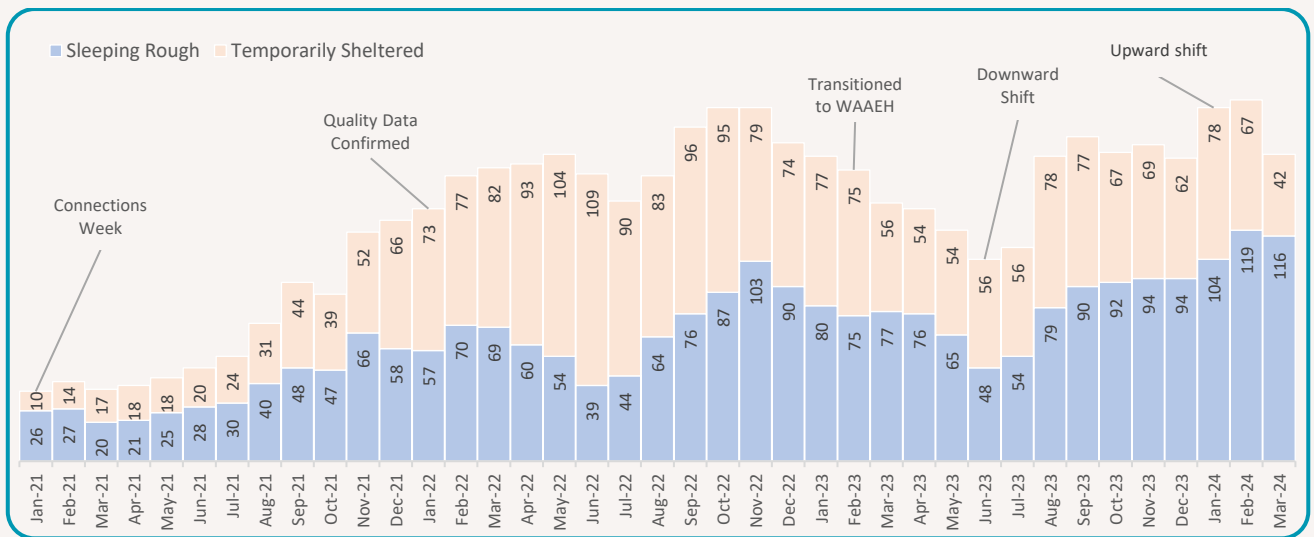

Outflow

*Previous report period was Dec 23 – Jan 24. The total number of people housed in YTD is only for 2024.

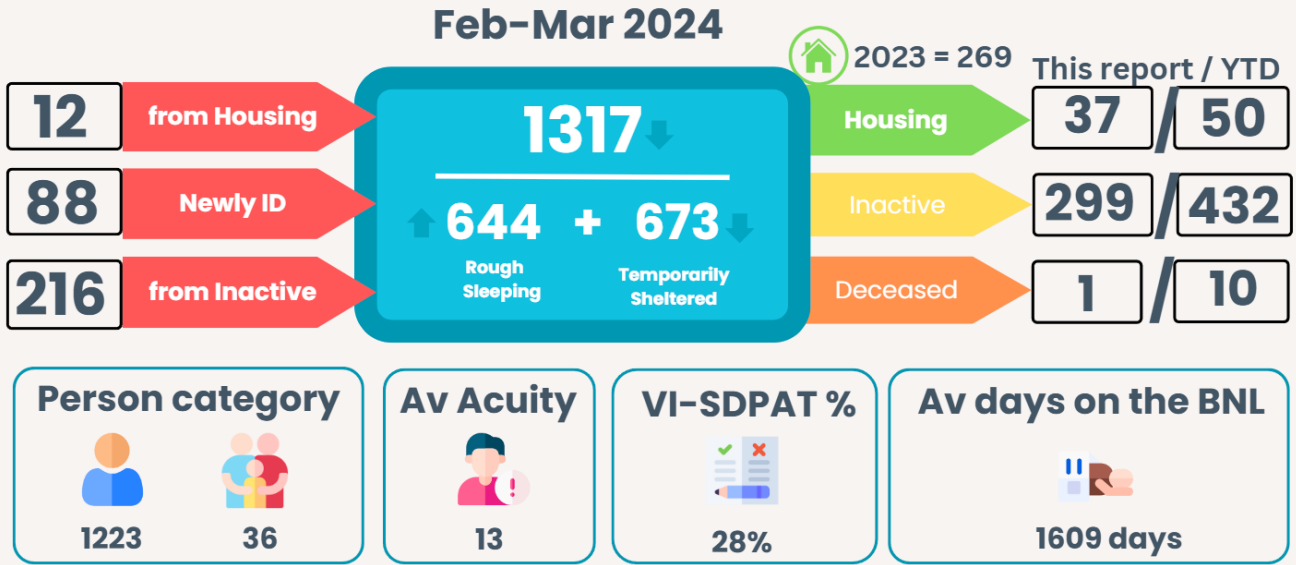

Run chart

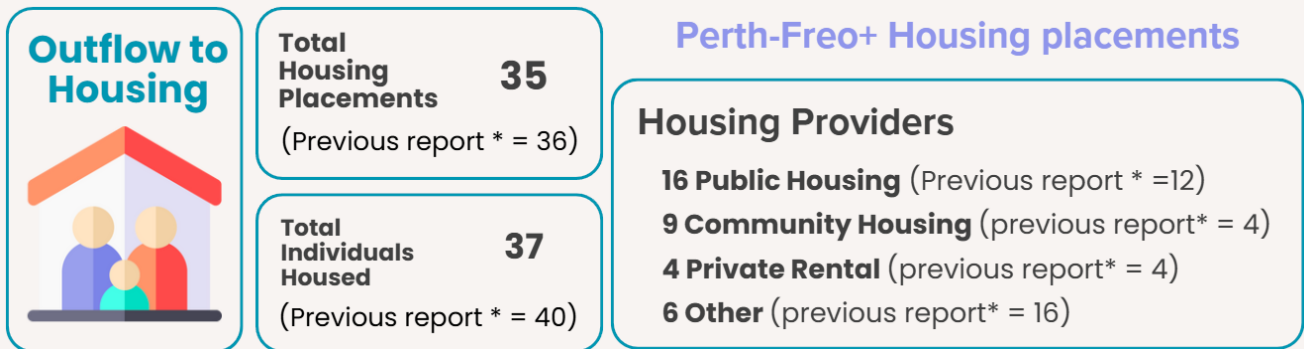

The Mandurah BNL started after its Connections Weeks that was carried out between Monday 18 and Friday 22 January 2021. The Connections Week [report](#) is available on the Zero Project website. Bunbury received certification for quality BNL data status from [Community Solutions](#) in January 2022.

Perth-Freo+

In/out flows for March BNL numbers

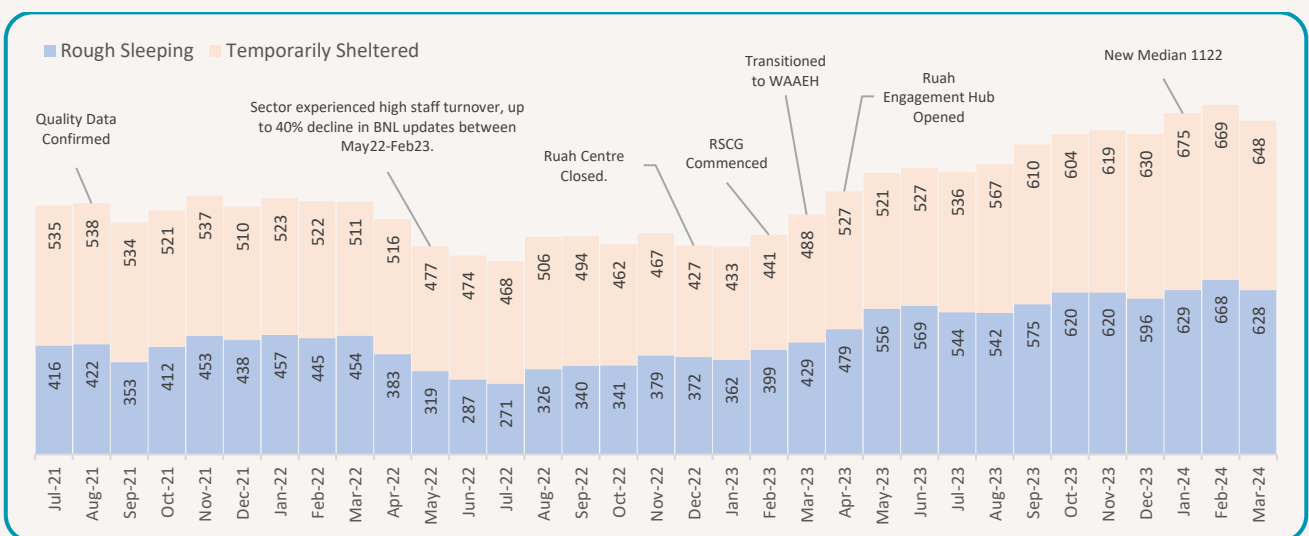

Outflow

*Previous report period was Dec 23 – Jan 24. The total number of people housed in YTD is only for 2024.

Run chart

The Perth-Freo+ BNL holds data from Registry and Connections Week dating back to 2012 when Ruh Community Services first started collecting VIs & VI-SPDATs with rough sleepers. Perth-Freo+ received certification for quality BNL data status from [Community Solutions](#) in June 2021.

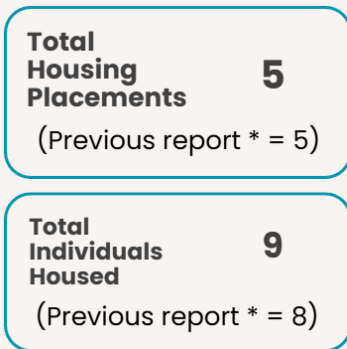

Rockingham

In/out Flows for March BNL numbers

Feb-Mar2024

Outflow

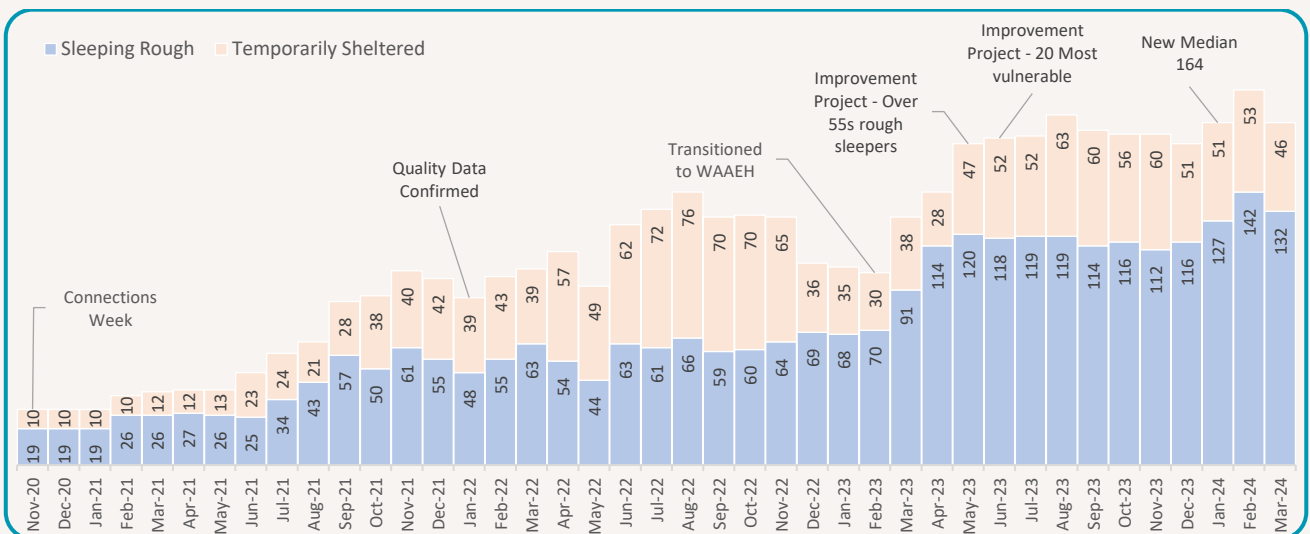

Rockingham Housing placements

Housing Providers

- 1 Public Housing (Previous report * = 1)
- 3 Community Housing (previous report* = 1)
- 1 Private Rental (previous report* = 2)
- 0 Other (previous report* = 1)

*Previous report period was Dec 23 – Jan 24. The total number of people housed in YTD is only for 2024.

Run chart

The Rockingham BNL started after its Connections Weeks that was carried out between Monday 9 and Friday 13 November 2020. The Connections Week [report](#) is available on the Zero Project website. Bunbury received certification for quality BNL data status from [Community Solutions](#) in January 2022.

Section 3: Appendix

Data Caveats

Data released by WAAEH is only for indicative information on rough sleeping and chronic homelessness and should not be treated as definitive 'numbers' due to the below reasons,

- The inflow/out data may not match/ appear balanced from month to month due to omitted data categories.
 - ie people reported as self-housed are not included in the outflow to permanent housing count as there is no data on the permanency of those placements. They are, instead, included in the Inactive count.
- Retrospective data added by users.
- BNL data will vary from day to day because it's a 'live' database, and users are constantly updating.
- At least 90% of rough sleepers are believed to be captured on BNL from the outreach work carried out by member organisations.
- Depending on the community, up to 60% of the people on the BNL do not have support from a lead organisation or worker. Data updates for people without lead organisation/worker can be intermittent.
- Some on the BNL may not receive updates until months after the event (ie updates are retrospectively added).
- It's not intended to be research quality data, ie, extracted snapshots only reflect what member organisations have added to the BNL at the time.
- It's not a mandatory database for member organisations. Contribution is solely based on the goodwill for a collaborative approach to ending homelessness.
- People on the BNL only required a monthly update to be included in the active homeless count.
- The BNL data and the dashboards published by the WAAEH are not a snapshot of all homelessness. The AtoZ approach is intentionally focused on the most vulnerable and disengaged homeless cohorts, those who are rough sleeping & chronically homeless.
- It's not intended to be a statewide data capture. A high rate of data contribution comes from support services such as engagement hubs and assertive outreach teams.
- The Perth-Freo+ data currently cannot be isolated to LGAs. It's important to note that many people experiencing homelessness move fluidly between Perth, Fremantle, and many other areas.
- The Perth, Fremantle+ BNL may not align with the current Housing First (HF) funded service areas as the database predates the HF initiatives. A prototype of the BNL was used by Ruah's 50Lives50Homes Project in 2016.
- Young people and families are suspected to be underrepresented on the BNL data on the Perth-Freo+ BNL.
